

Up Jet/ Side Jet/ Down Jet Float Shoe -SH18-UJ/Sj/DJ

Available in 3 1/2" to 20" sizes + any special sizes

Sledge Hammer's Up Jet / Side Jet / Down Jet shoes are provided with properly drilled angled holes which ensure even distribution of fluid with added assurance that circulation of fluid is not interrupted when casing becomes plugged during running or is rested on bottom. Enhancement of fluid turbulence helps in preventing channeling near the shoe thus aiding in hole cleaning. These Float Shoes are available with single valve as well as with double valve, and in Conventional and Non-Rotating Profile.

They are available at cost effective price.
